

Memo

To: Grand Portage Community and Visitors
Date: July 29, 2021
Re: **VERY HIGH FIRE DANGER CONTINUES**

Due to VERY HIGH DANGER:

1. Campfires and Open Burning are prohibited outside of the Village.
2. Fireworks are prohibited within the boundaries of the Grand Portage Reservation
3. Open Burning without a permit is prohibited. Contact Forestry for exceptions
4. Campfires in appropriate fire rings are allowed in the Village
5. Barbeque grills allowed near residences
6. Tend to campfires and barbecue grills at all times. When not in use, properly extinguish by adding water and stirring

The Beaver float plane may perform aerial fire detection in the afternoon until significant precipitation is received. The Beaver comes from the east and turns around at Mineral Center

Wildland Fire staff will be working until 6pm. You may see Fire Engines patrolling throughout the Reservation

Additional resources such as Engines from other Reservations or Agencies will be added as needed. A White Earth engine will be assigned to Grand Portage until conditions improve.

Please contact Forestry with any questions. 475-2033 or 475-2035.

Chairman
